Subject: Uber

Uber is my preferred method to get home after a night out. The taxi cab service in the Greenville Sc area is unreliable. The uber drivers are usually far more courteous and for the most part feel safer riding with uber than I do using a normal taxi cab service. Please allow me to use uber again as soon as possible.

Thanks,
Daniel Sykes

Subject: Uber

Uber is a great service for all South Carolinians. It is sad that the PSC felt it necessary to declare Uber unlawful considering Uber exceeds the state requirements for background checks and insurance. In cities like Greenville and Charleston there are very limited taxi cab providers available on Friday and Saturday nights and Uber has proven to be a safe, reliable alternative.

The decision made by the PSC is irrational and a knee jerk reaction, it is clear to me that the PSC does not support capitalism and safe reliable mode of transportation for the people of South Carolina. This decision should be reversed.

As a single female, I feel much safer in an Uber car where I have a photo/info of the driver before they arrive, an electronic record of the ride, and no money exchanges hands in the car. I use Uber when I travel to states all over the country and want to have it at home too. Please do not be the backwards, anti-technology state everyone thinks we are!!!

I believe Uber should be allowed to operate and compete against traditional taxi services in the state of SC.
